# Background to this work: The performance of Global Health Partnerships (GHPs) is increasingly important and scrutinized, yet achieving high performance is proving challenging

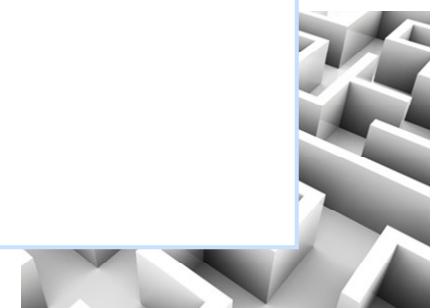

## Increasing role of GHP performance

- GHPs play a major role in global health
- Performance of GHPs can have huge impact on health of world's population
- The focus on performance is increasing, driven by
  - Increasing donor focus on impact, effectiveness, and efficiency
  - Increasing number of Partnerships in global health
  - Likelihood of lower funding growth or less funding, given financial crisis

## Challenging factors

Complex environment and nature of GHP organizations create challenges, e.g.

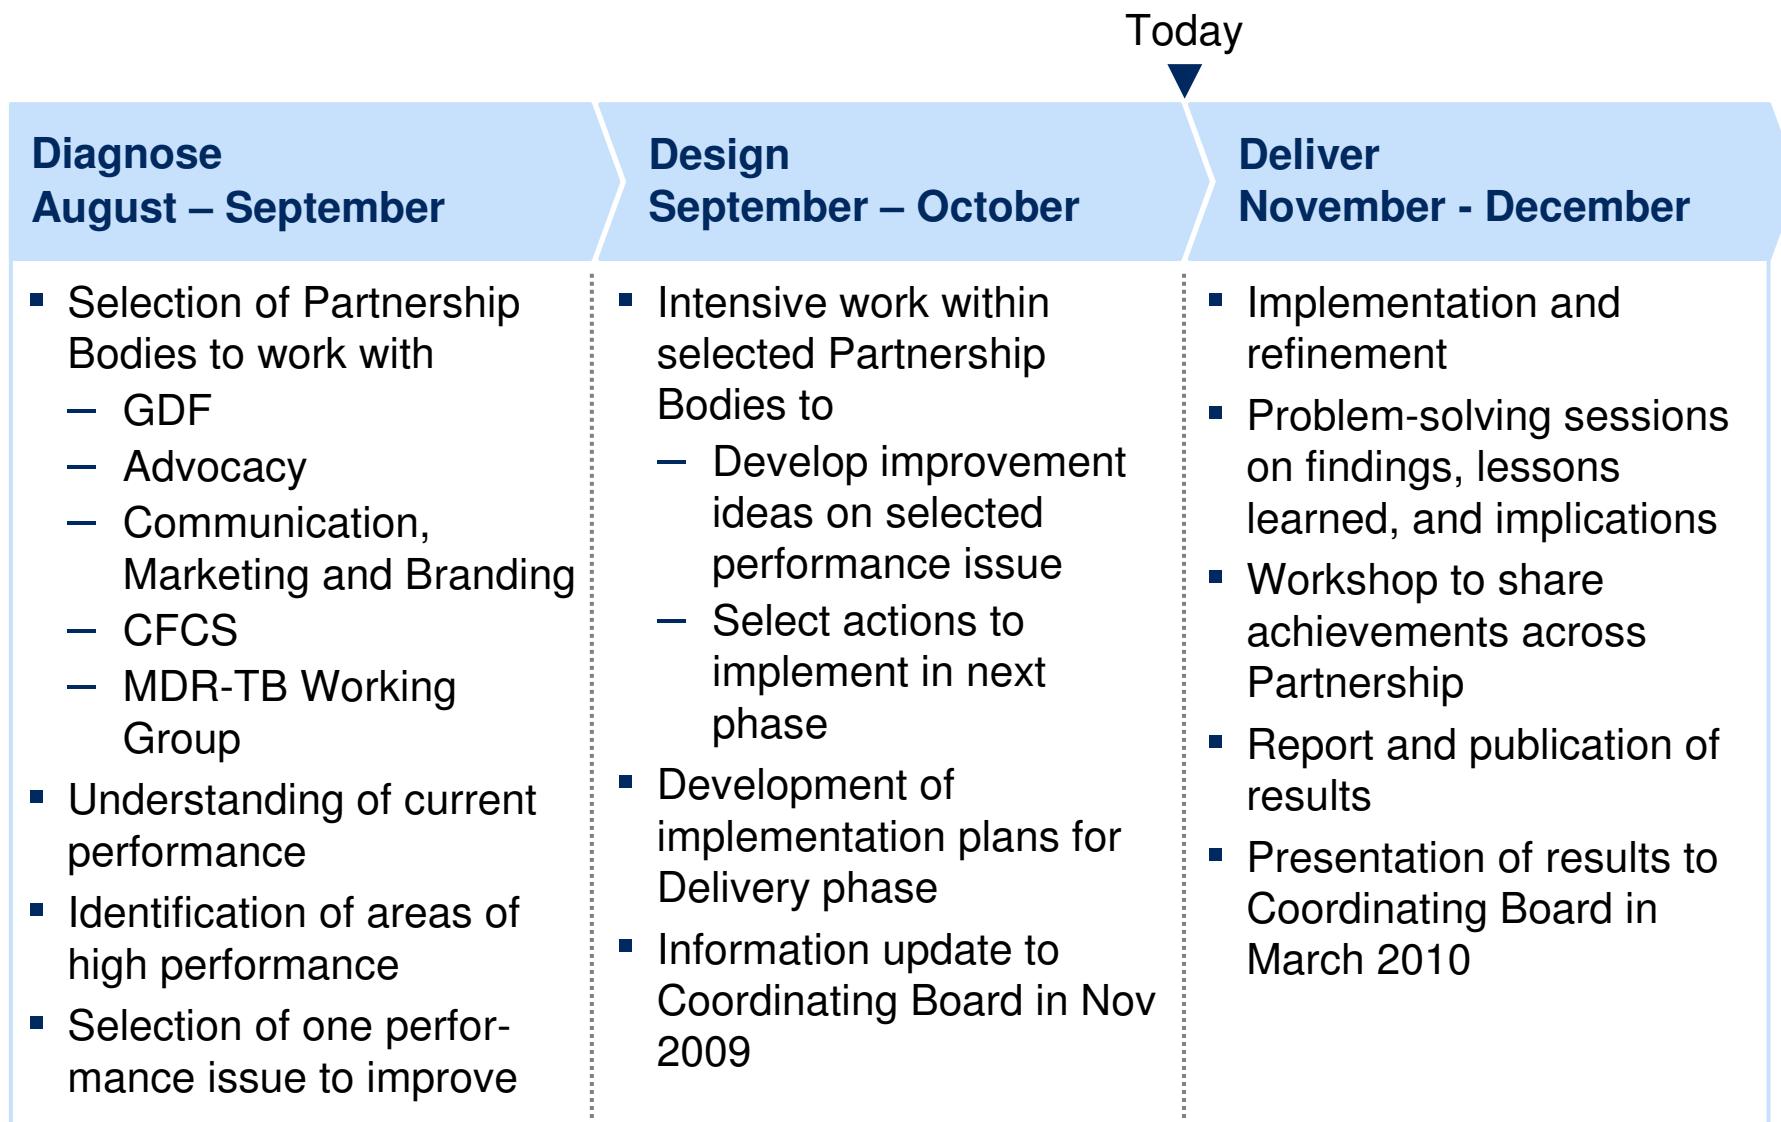

- **Objective-setting:** distinguishing between change GHP hopes to bring about in the world vs. the goals it sets itself that will help bring about the change
- **Accountability:** ensuring accountability and delivery in the context of loose Partnership structures, voluntary membership, and limited hierarchy
- **Capabilities:** gaining the capacity and capabilities needed to continuously improve their performance

# Project goals, approach, and end-products: The project will deliver practical insights on improving the performance of GHPs based on piloted improvement ideas

Goals	Approach	3 main end-products
<ul style="list-style-type: none"><li>▪ Develop a joint perspective, tested and proven, on how GHPs can improve performance, by<ul style="list-style-type: none"><li>— Exploring how to improve performance in a GHP, not simply to adopt existing (e.g. private sector) approaches</li><li>— Testing new ways of working with STB bodies that could lead to higher performance</li><li>— Develop a joint perspective to share with global health community</li></ul></li></ul>	<ul style="list-style-type: none"><li>▪ Build on strengths and improvement opportunities outlined in 2008 evaluation</li><li>▪ Joint working, collaborative, co-creation. Not client-consultant work</li><li>▪ Duration: ~22 weeks: 10 weeks (diagnosis and design), 12 weeks (delivery)</li><li>▪ Scope: 5 Partnership bodies: GDF, MDR-TB WG, CFCS, Advocacy and CB&amp;M teams</li><li>▪ External interactions with other GHPs, e.g., RBM, UNAIDS, GAVI, GF</li></ul>	<ul style="list-style-type: none"><li>▪ Successful performance <b>improvement pilots</b> in selected Partnership bodies, with accompanying documentation to support roll-out to other bodies</li><li>▪ A <b>co-authored project report</b>, suitable for publication in major journals, detailing the experience, including impact of the work and lessons for other GHPs</li><li>▪ A "<b>practitioners guide</b>" to support McKinsey teams conducting similar work</li></ul>

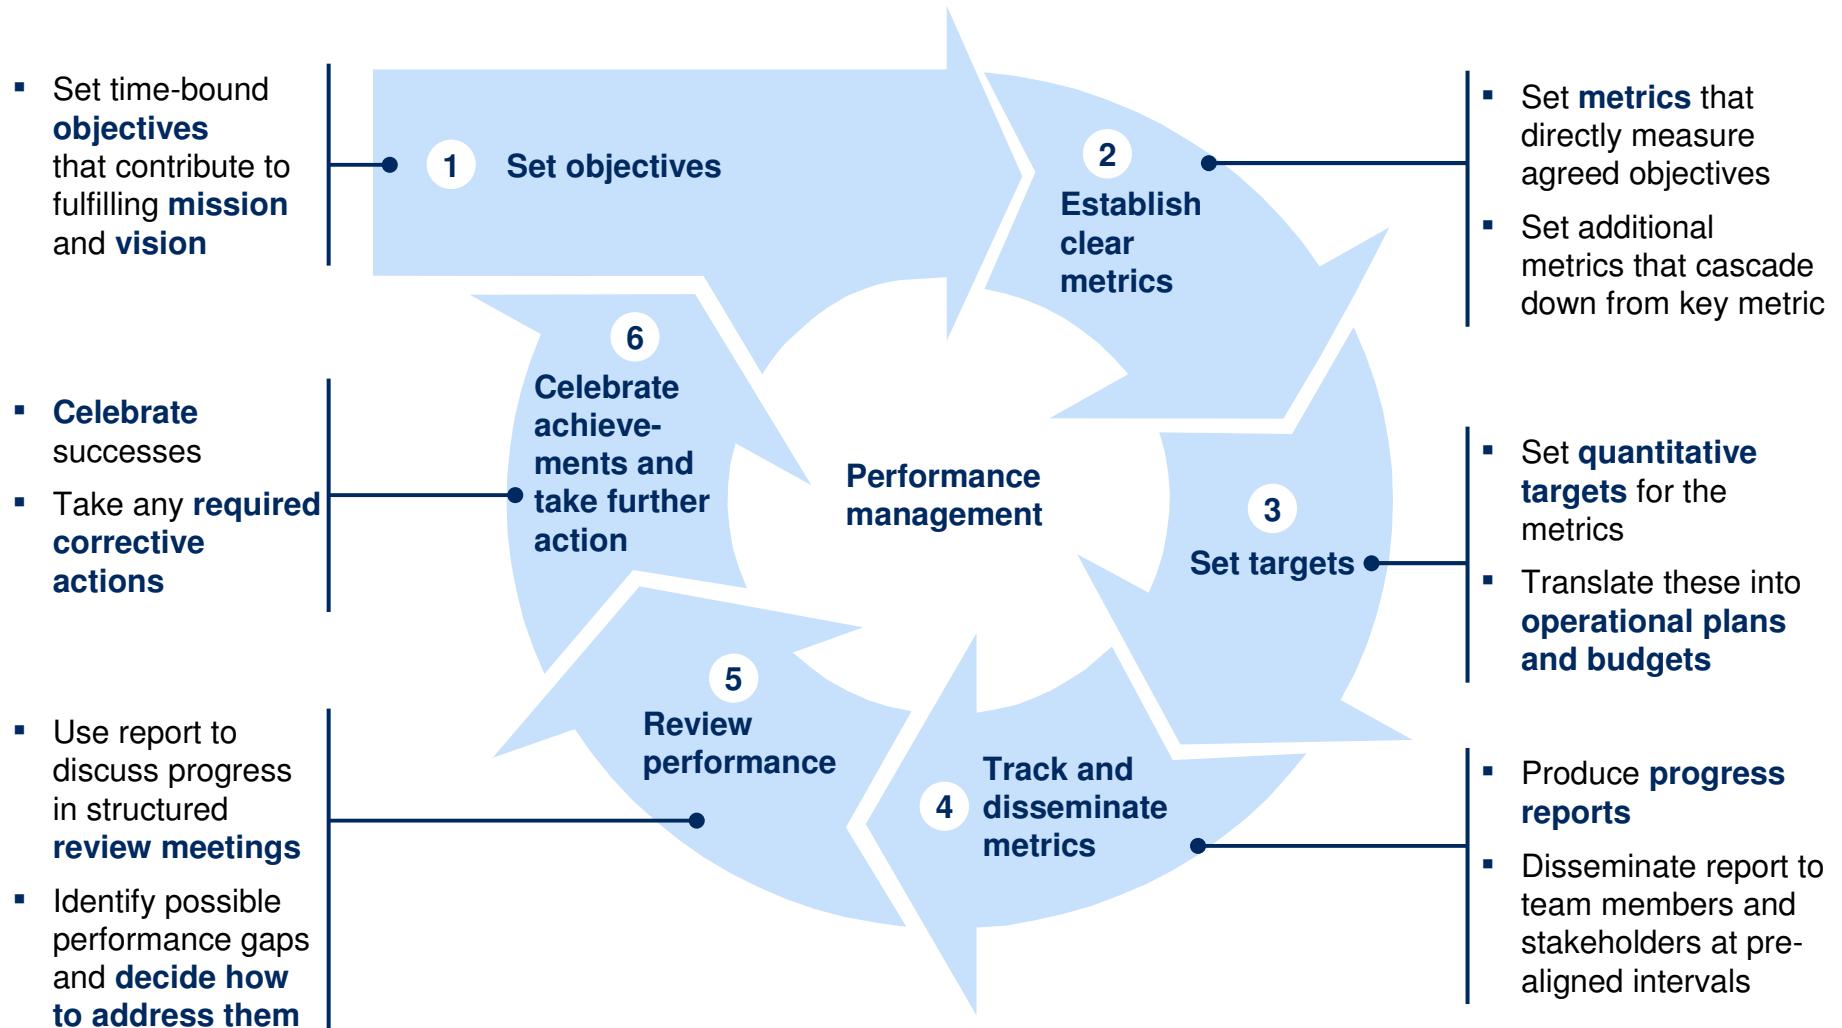

## Project approach: This project is organized in 3 distinct phases

# Project deliverables for December 2009

End-products	Description
Improvement pilots	<ul style="list-style-type: none"><li>▪ Each participating Partnership body conducting improvement project, focusing on one relevant area, e.g.<ul style="list-style-type: none"><li>— Definition of objectives/goals</li><li>— Development of scorecards</li><li>— Improvement of processes</li><li>— Activation of relevant 'enablers', e.g., mindsets and capabilities</li></ul></li><li>▪ Pilot progress showcase/workshop (mid-December)</li><li>▪ Development of accompanying "pilot playbook" (how-to guide for Partnership bodies)</li></ul>
Project report	<ul style="list-style-type: none"><li>▪ A detailed project description, including<ul style="list-style-type: none"><li>— Problem definition and why it matters</li><li>— Why it is and remains a problem</li><li>— Case account of Stop TB Partnership (what it's doing well; what can be improved)</li><li>— Perspective from other GPH organizations (How "typical" is this?)</li><li>— Improvement projects launched and early findings</li><li>— Lessons, insights, conclusions</li></ul></li></ul>
Practitioners Guide	<ul style="list-style-type: none"><li>▪ Detailed account of work conducted to improve performance management for use by consultant teams in and beyond social sector</li></ul>

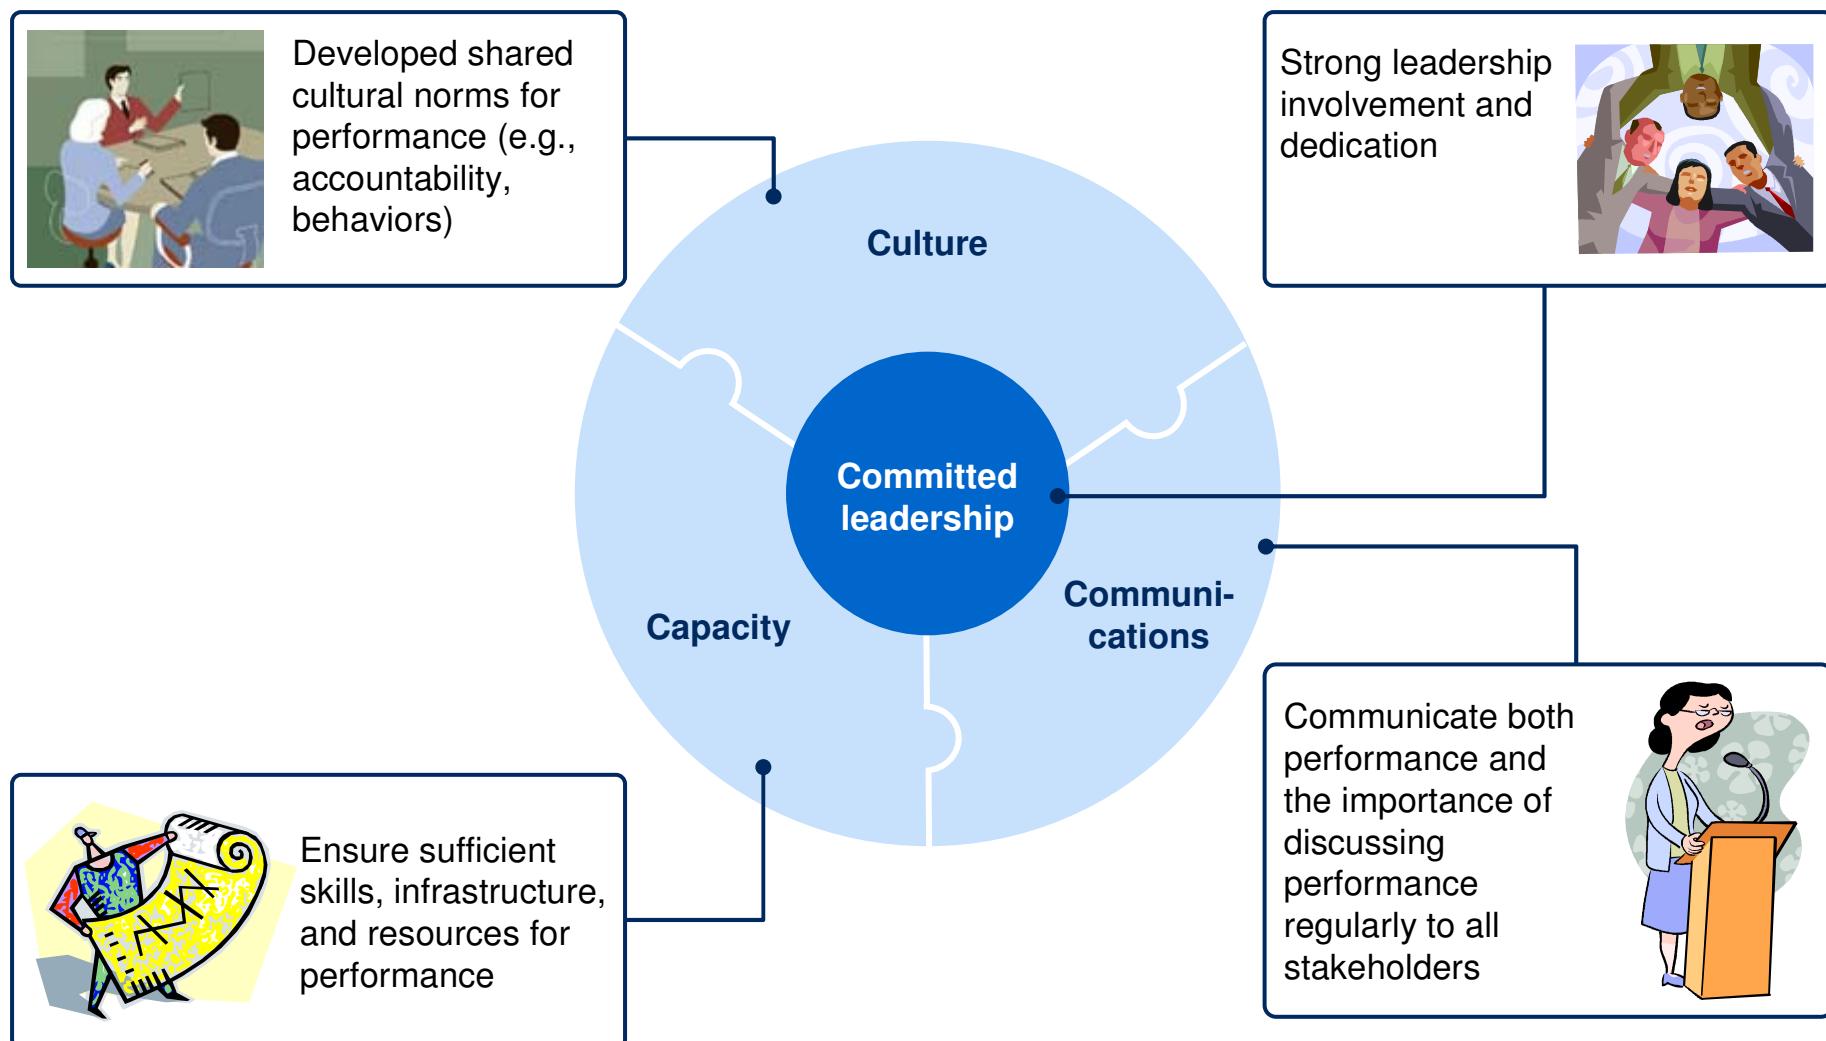

## Framework: We think about performance in terms of both processes and enablers –(1) Processes

# Framework (backup): Definition of performance management terms

	Definition/description	Example
Vision	<ul style="list-style-type: none"><li>▪ Articulates the aspiration or target for the future</li><li>▪ Describes core ideology, which may include “timeless” guiding principles and purpose</li></ul>	<ul style="list-style-type: none"><li>▪ A TB-free world</li></ul>
Mission	<ul style="list-style-type: none"><li>▪ Defines the organization's purpose and primary objectives</li></ul>	<ul style="list-style-type: none"><li>▪ Supply low-cost, quality drugs to countries that need them</li></ul>
Objective	<ul style="list-style-type: none"><li>▪ Narrow, time-bound, quantifiable goal that contributes to delivering the mission</li></ul>	<ul style="list-style-type: none"><li>▪ Supply low cost, quality TB drugs at USD 20/treatment course for X number of patients in 2010</li></ul>
Metric	<ul style="list-style-type: none"><li>▪ Measurable variable that indicates progress towards objective</li></ul>	<ul style="list-style-type: none"><li>▪ E.g., funds raised, number of patient treatments supplied, number of grants and treatments approved</li></ul>
Target	<ul style="list-style-type: none"><li>▪ The target value of the metric chosen</li></ul>	<ul style="list-style-type: none"><li>▪ E.g., 15 million patient treatments supplied by 2010</li></ul>
Report	<ul style="list-style-type: none"><li>▪ Set of metrics and current values vs. target</li><li>▪ Explanation of reasons for current performance and how to get to targets</li></ul>	<ul style="list-style-type: none"><li>▪ See pages 22, 23 in this document for examples</li></ul>
Performance review	<ul style="list-style-type: none"><li>▪ A sequence of meetings conducted to<ul style="list-style-type: none"><li>– Review performance</li><li>– Understand root causes of performance gaps</li><li>– Decide how to address them</li><li>– Agree appropriate actions</li></ul></li></ul>	

## Framework: We think about performance in terms of both processes and enablers –(2) Enablers

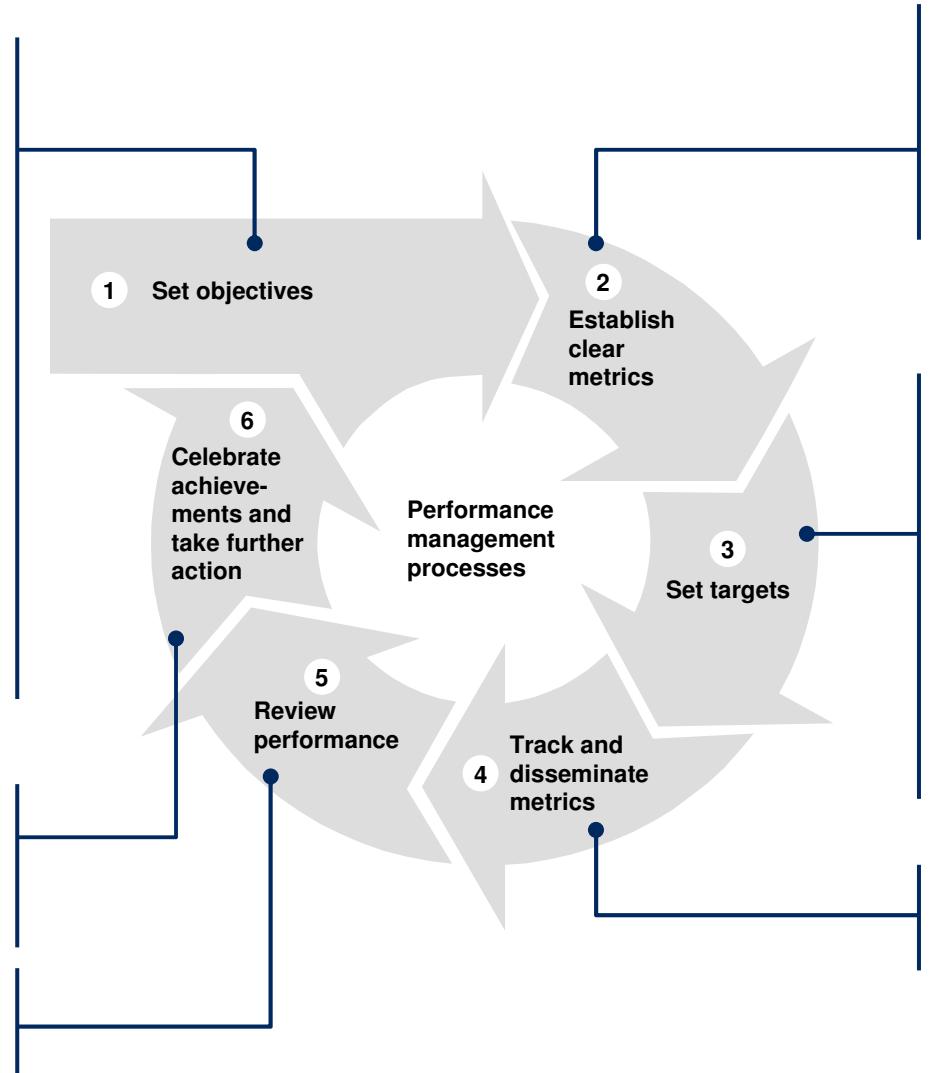

# Challenges (1): Many Global Health Partnerships find some performance processes challenging given their complex environment and structure

- **Getting from a vision to the specific objectives** for the partnership and its bodies rather than directly to activities
- **Aligning divergent partner views** on which objectives to pursue
- **Setting advocacy objectives** that stay current and relevant in changing external circumstances
- **Finding and making visible tactical advocacy opportunities** for partners to act on

Committing to specific **corrective actions**, given loose and voluntary nature of partnership

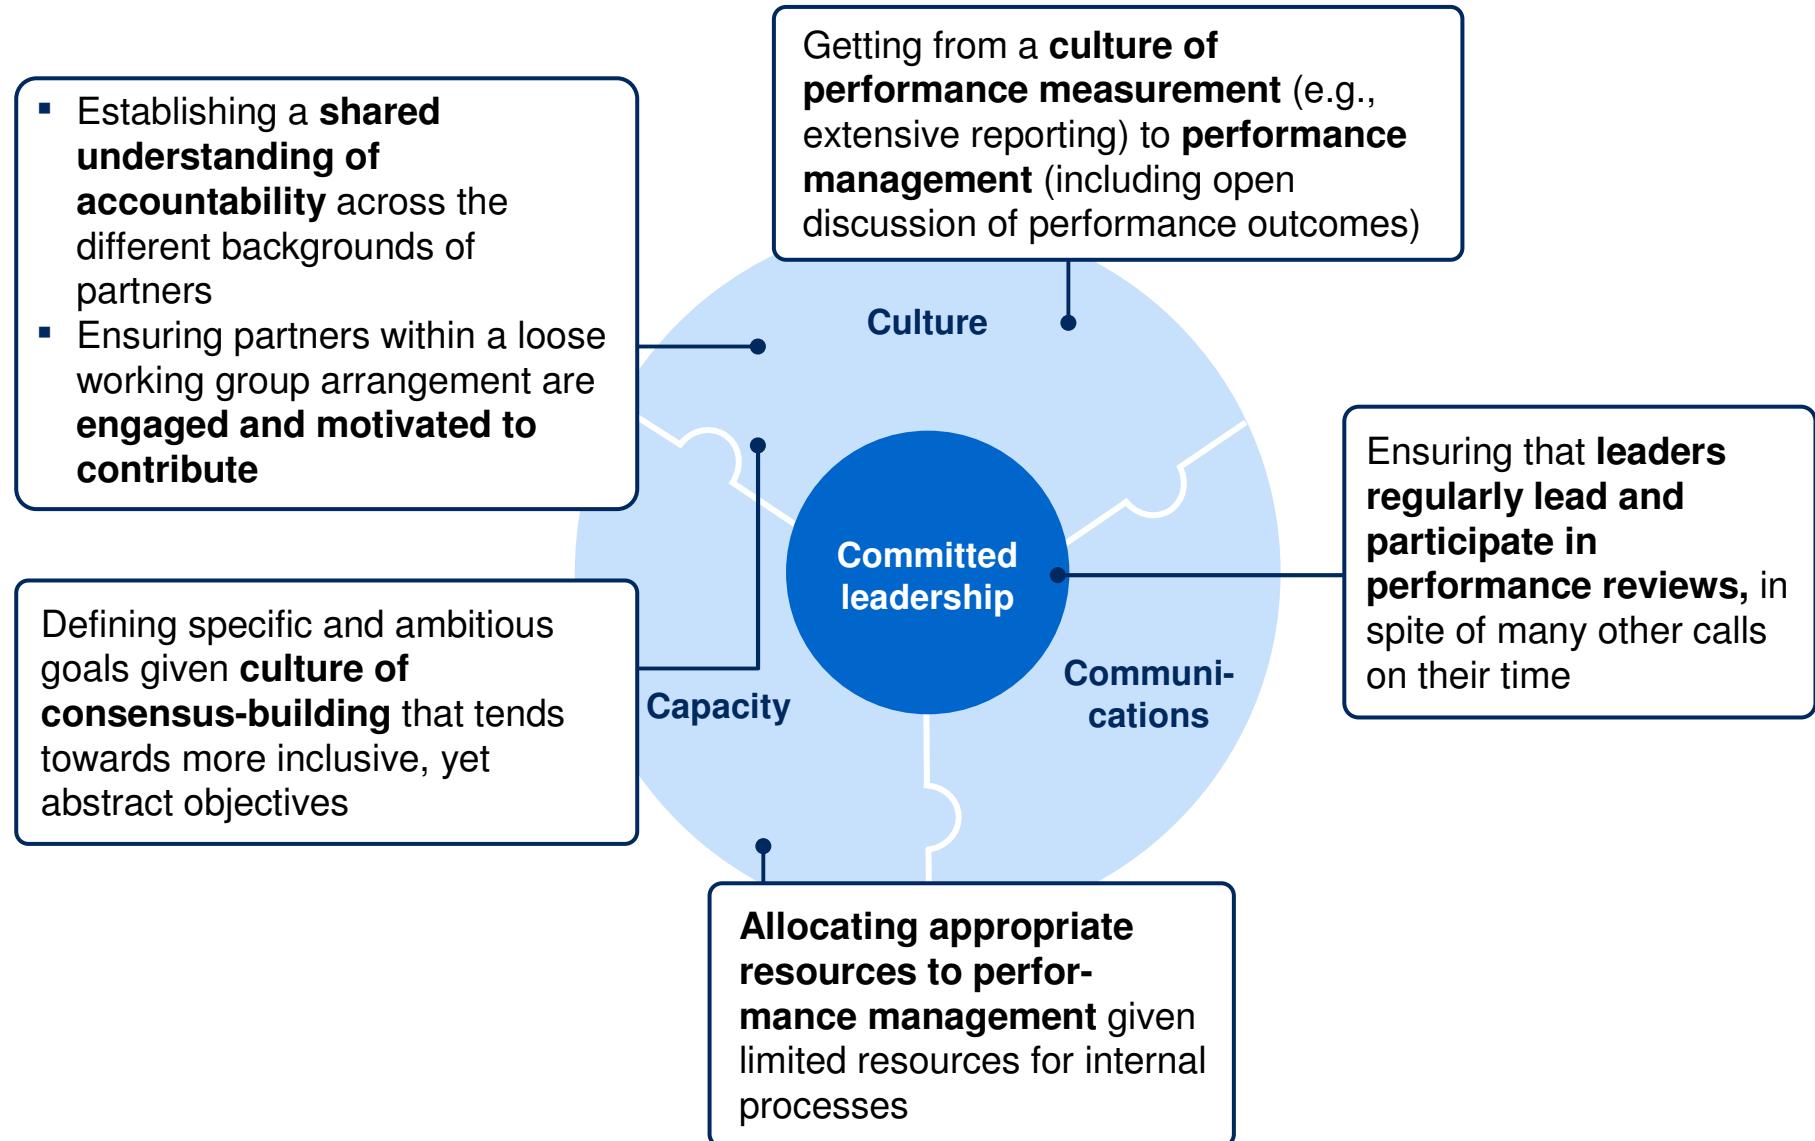

Holding regular, **trust-based performance conversations**

- Agreeing **the right metrics** for objectives that are difficult to measure, e.g., awareness about TB
- Aligning organization structures with performance drivers and metrics to enable **clear accountability**
- **Committing to targets** is sometimes difficult because
  - (a) some targets are not entirely deliverable by partnership
  - (b) voluntary nature of partnerships
  - (c) consequences of not meeting targets (e.g., on future funding)

Getting **good performance data** because of in-country data gathering limitations

## Challenges (2): Many GHPs also struggle with the right enablers

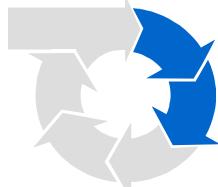

# Diagnostic phase findings (1): The Stop TB Partnership displays a number of strengths across performance processes

## Examples

- **Setting objectives** – GDF objectives are clearly defined and distinguish "the change the GDF hopes to bring about in the world" (e.g., Millennium Development Goals – 70% TB cases diagnosed, 85% cure rate) from the internal goals it sets itself that will enable this change
- **Establishing clear metrics and setting targets** – MDR-TB Working Group defines concrete metrics (e.g., number of patients with access to MDR-TB treatment; research projects launched for evaluation of diagnostic algorithms) and sets specific targets for these metrics (e.g. for 2009, 200000 patients, 4 projects)
- **Tracking and disseminating metrics** – Despite limited resources for performance management, GDF manages to track and report on a wide variety of metrics to meet the different demands of donors
- **Reviewing performance** – In response to donor demands, the Advocacy Team conducts an in-depth review of performance against objectives stated in funding proposal so as to take stock of results achieved and lessons learned

## Diagnostic phase findings (2): The Stop TB Partnership also displays a number of strengths across the enablers of performance

### Examples

---

- **Committed leadership**
  - GDF leaders driving performance improvement initiatives
  - Secretariat leaders setting ambitious performance targets for teams
  - Coordinating Board members supporting focus on performance

- **Culture** – GDF has created a culture of performance with a focus on continuous improvement and quality management. The team is actively eliciting feedback on performance, e.g., through the Business Advisory Committee
- **Communication** – The Advocacy Team engages in ongoing communication across the Secretariat as well as with key partners such as the Stop TB department at WHO and the TB-HIV Working Group. Thereby, performance objectives are well known among relevant stakeholders

- **Capacity** – The Communications, Marketing and Branding Team makes efficient use of pro bono resources volunteered by partners. These resources are used to deliver some of the team's activities (e.g., production and distribution of public service announcements) as well as to assess performance against specific metrics (e.g., data received from partner on number of viewers)

## Diagnostic phase findings (3): Brief overview of performance issues we have jointly agreed to address in Design and Deliver phases (more detail in following sections)

	Central Global Health Partnership performance issue	Specific question addressed with Partnership body
GDF	<ul style="list-style-type: none"><li>▪ Agreeing the right metrics for objectives that are difficult to measure</li></ul>	<ul style="list-style-type: none"><li>▪ GDF tracks 250 metrics but<ul style="list-style-type: none"><li>— Not all are related to GDF</li><li>— Some overlap</li><li>— Metrics are not organized systematically/hierarchically</li></ul></li></ul>
Advocacy	<ul style="list-style-type: none"><li>▪ Setting advocacy objectives that stay current and relevant in changing external circumstances</li></ul>	<ul style="list-style-type: none"><li>▪ Setting advocacy objectives within Stop TB Partnership that stay current and relevant in changing external circumstances</li></ul>
Communication, Marketing and Branding	<ul style="list-style-type: none"><li>▪ Getting from a vision to the specific objectives for the partnership and its bodies rather than directly to activities</li><li>▪ Agreeing the right metrics for objectives that are difficult to measure, e.g., awareness about TB</li></ul>	<ul style="list-style-type: none"><li>▪ Determining detailed objectives for each audience group that the Communications, marketing and branding team seeks to address</li><li>▪ Define metrics for each detailed objective</li></ul>
Challenge Facility for Civil Society	<ul style="list-style-type: none"><li>▪ Getting from a vision to the specific objectives for the partnership and its bodies rather than directly to activities</li></ul>	<ul style="list-style-type: none"><li>▪ Refine the mission based on experience and lessons learned in the first two years of the CFCS program</li><li>▪ Articulate specific objectives around the newly refined mission statement</li></ul>
MDR-TB Working Group	<ul style="list-style-type: none"><li>▪ Ensuring partners within a loose working group arrangement are engaged and motivated to contribute</li></ul>	<ul style="list-style-type: none"><li>▪ Developing a simple survey-based tool to assess the level of working group engagement</li></ul>

# GDF issues and opportunities

## GHP performance issue

- ② Agreeing the right metrics for objectives that are difficult to measure
- ② Aligning organization structures with performance drivers and metrics to enable clear accountability
- ④ Getting good performance data because of in-country data gathering limitations
- ⑤ Holding regular, trust-based performance conversations

## GDF performance improvement opportunity

- ② GDF tracks 250 metrics but
  - Not all are related to GDF
  - Some overlap
  - Metrics are not organized systematically/hierarchically
- ② Limited clarity on accountability for data collection/performance against each KPI
- ② Difficult to assess GDF's performance against its objectives
- ④ Limited resources (personnel and time) to gather data and prepare reports for internal use
- ⑤ Limited time available for performance discussions

# While most of the 250 metrics were relevant and helpful to GDF, data collection and reporting was onerous

*"All together we report on over 200 KPIs that cover our numerous external reporting requirements"*

*"Most individual KPIs are relevant and helpful"*

*"KPIs are specific and measurable"*

Source	KPI name
208 UNITAID/HDR-TB Plan 2009-2011	Number of treatments provided
209 UNITAID/HDR-TB Plan 2009-2011	Potential global savings on total actual treatments
210 UNITAID/HDR-TB Plan 2009-2011	Potential global savings on total treatments needs
211 UNITAID/HDR-TB Plan 2009-2011	Price decrease
212 UNITAID/HDR-TB Plan 2009-2011	Procurement fee ratio
213 UNITAID/HDR-TB Plan 2009-2011	Product availability - High quality 2nd line
214 UNITAID/HDR-TB Plan 2009-2011	Product availability - Pre-qualified 2nd line
215 UNITAID/HDR-TB Plan 2009-2011	Product availability - Pre-qualified 1st line
216 UNITAID/HDR-TB Plan 2009-2011	Product distribution buffer
217 UNITAID/HDR-TB Plan 2009-2011	Product re-introduction - High quality 2nd line
218 UNITAID/HDR-TB Plan 2009-2011	Product re-introduction - Pre-qualified 2nd line
219 UNITAID/HDR-TB Plan 2009-2011	Product shipping performance
220 UNITAID/HDR-TB Plan 2009-2011	Stockpile loss management cart
221 UNITAID/HDR-TB Plan 2009-2011	Stockpile Management overhead cart
222 UNITAID/HDR-TB Plan 2009-2011	Stockpile pre-order cart
223 UNITAID/HDR-TB Plan 2009-2011	Treatment gap products in market
224 UNITAID/HDR-TB Plan 2009-2011	Treatment cart
225 UNITAID/HDR-TB Plan 2009-2011	Treatment need
226 UNITAID/HDR-TB Pre-grant report 2007	Patient(s) able to start or continue treatment for MDR-TB with drugs delivered (all orders)
227 UNITAID/HDR-TB Pre-grant report 2007	Patient(s) able to start or continue treatment for MDR-TB with drugs delivered (Global Fund orders)
228 UNITAID/Pediatric Report 2007	Average number of days for manufacturing
229 UNITAID/Pediatric Report 2007	Average total carts of a delivery per quarter
230 UNITAID/Pediatric Report 2007	Spending on products as a percent of total order carts (all orders)
231 UNITAID/Pediatric Report 2007	Spending on shipping, insurance and quality control as a percent of total order carts (all orders)
232 UNITAID/Pediatric Report 2007	Average lead time for delivery of drugs per country
233 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Average percentage of time that Pediatric TB drug used in the most common treatment regimen are not available in TGO approved countries
234 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Country applications reviewed and approved by TGO
235 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	GDF key product price increase in 2010/12 compared to baseline price
236 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	GDF price increase in 2010/12 compared to baseline cart
237 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	GDF price increase of each non-pediatric TB drug compared to last year price available from non-GDF manufacturer/benchmark with same quality standards
238 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Increase in the number of LTA signed with manufacturers for supply of non-pediatric TB treatments
239 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Increase in the number of manufacturers for non-pediatric TB products currently listed in the GDF catalogue
240 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Increase in the number of manufacturers for new non-pediatric TB products
241 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Number of non-pediatric TB drugs either pre-qualified or with complete dossiers submitted to the WHO pre-qualification programme for the duration of the period
242 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Number of pre-qualified drugs and non-pediatric TB drug formulations available each year for the duration of the project
243 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Per cent of order (per product) placed through panel procurement
244 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Per cent of orders placed for beneficiary countries annually within the timeline recommended by TGO
245 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Per cent of paediatric patients completing treatment in a 6 month period
246 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Per cent of total budget allocated to LIC, LMIC, UMIC
247 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Per cent of treatments ordered by countries that match the number of treatments budgeted for in the project agreement
248 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Proportion of paediatric TB cases reported out of total TB cases reported by a country
249 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	Total number of patient treatments approved by the TGO for each country include an additional 20% of each treatment to be held as buffer stock
250 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	
251 UNITAID/Pediatric Reporting Template (2006-04-and-2018)	

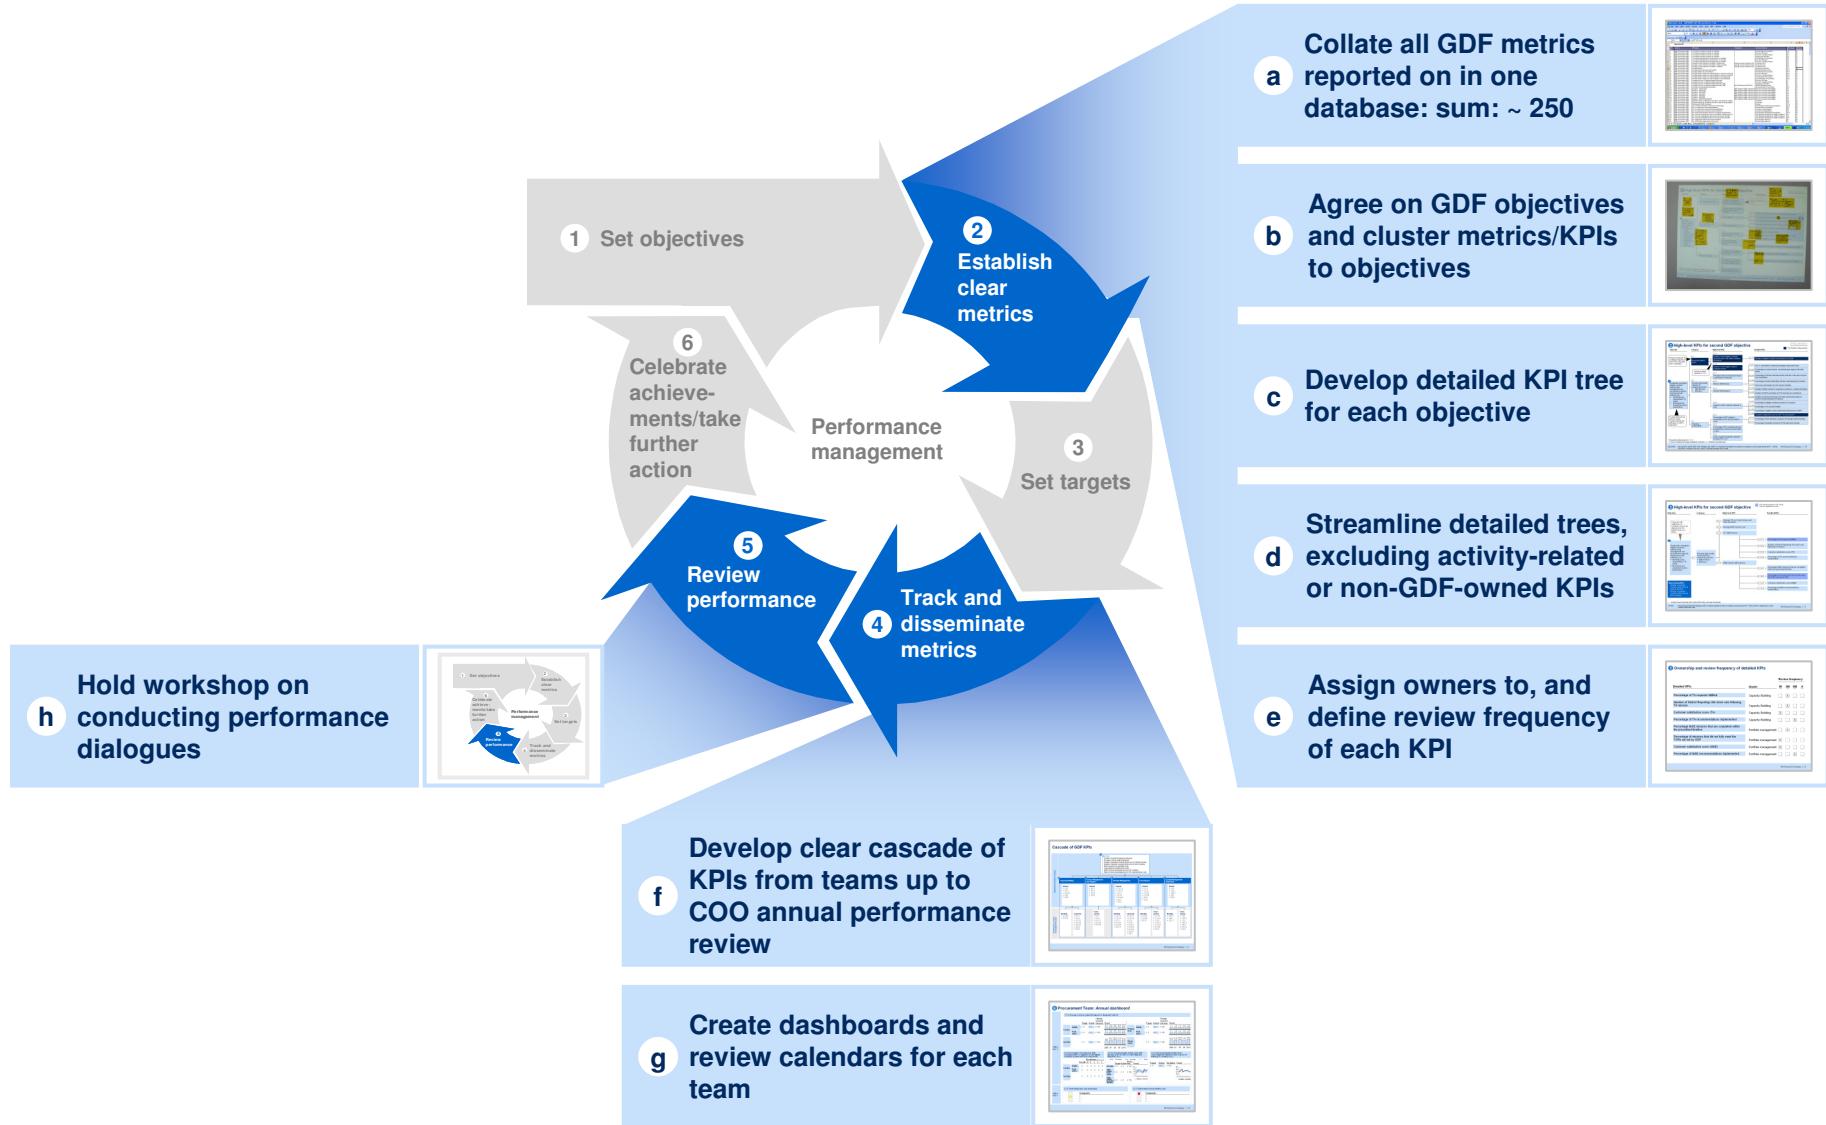

*"It takes too much time to collect the information and to adapt it to our 200+ KPIs"*

*"It is difficult to define metrics for some areas so we have KPI gaps"*

*"Some of our KPIs overlap so it is unclear what we are optimizing for"*

*"Since the hierarchy of KPIs is not clear, it is hard to prioritize"*

# The team followed an 8 step process to create streamlined and structured KPIs, dashboards, and review meetings

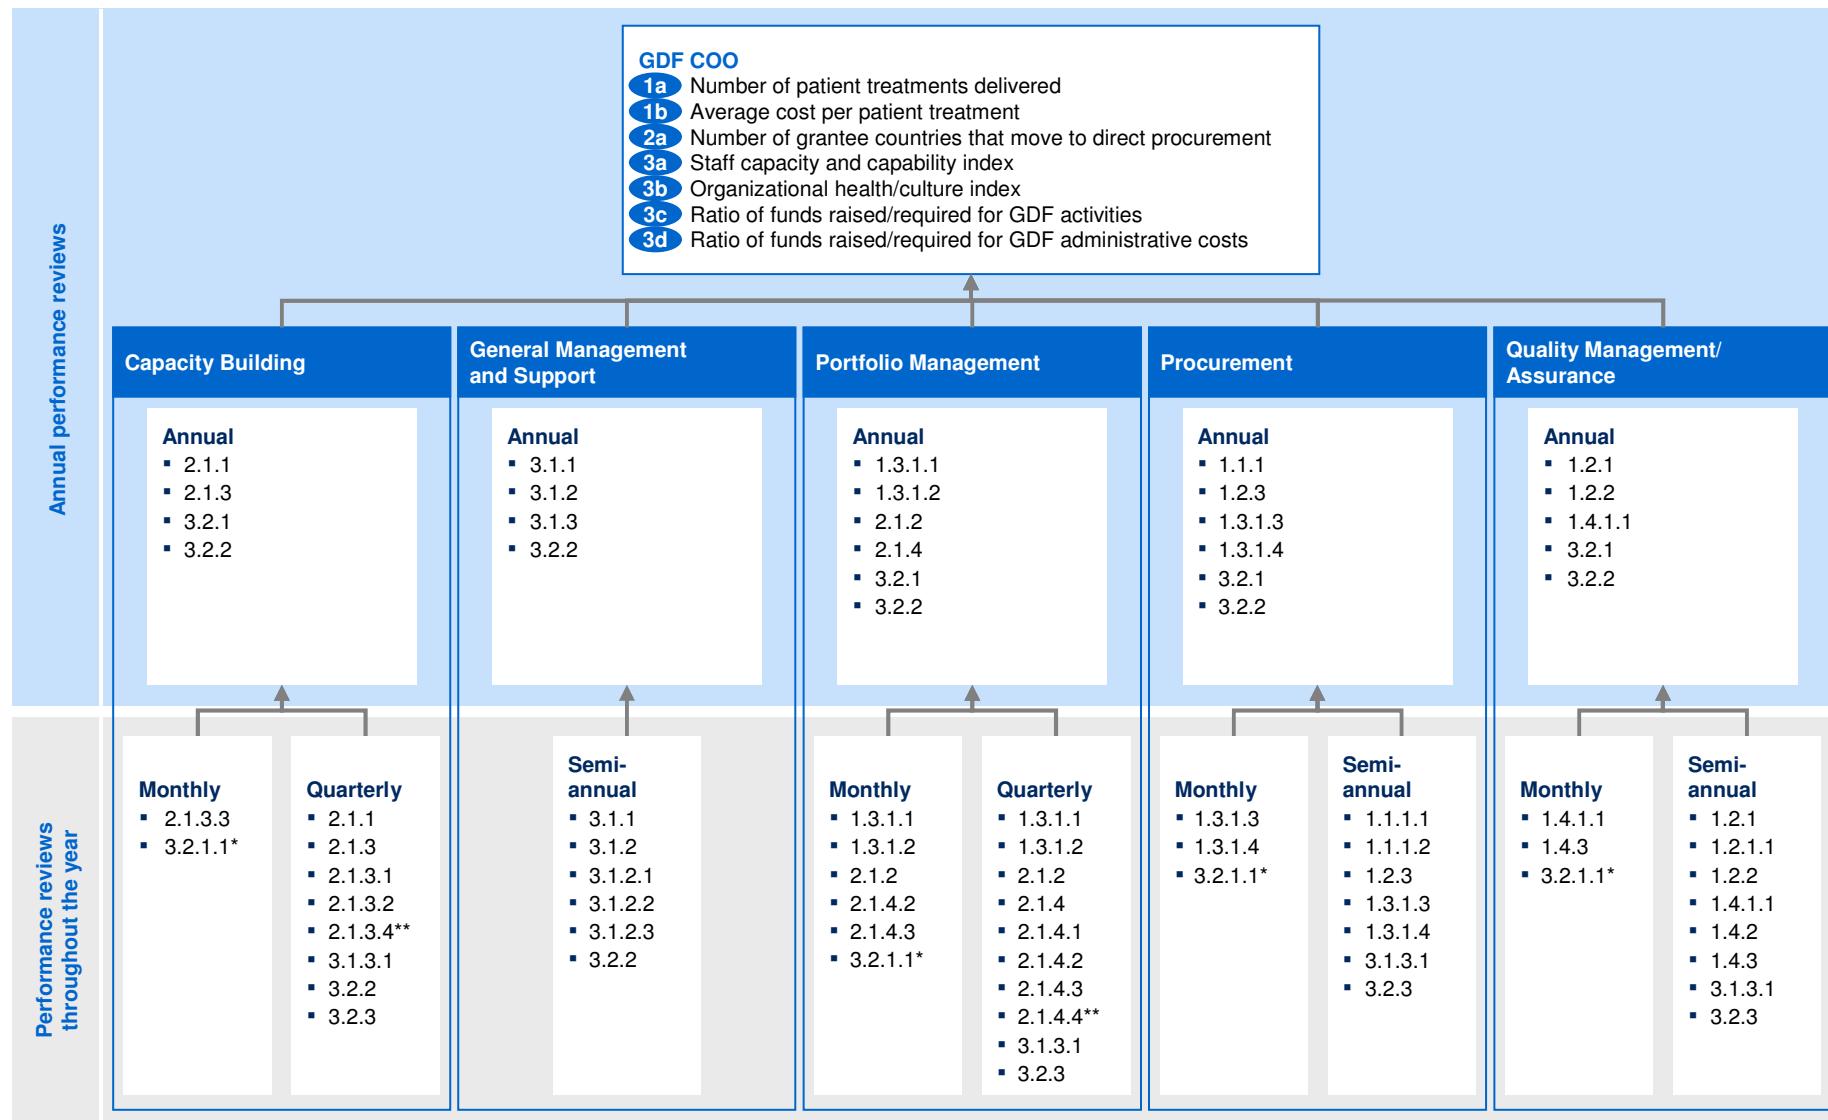

## 7 KPIs give a clear overview of GDF's performance against its 3 main objectives

Objective	KPI
<b>1</b> Provide uninterrupted supply of 1st and 2nd line TB drugs and diagnostics: <ul style="list-style-type: none"><li>▪ At low-cost</li><li>▪ At high quality</li><li>▪ Timely</li><li>▪ In a demand and customer-driven way</li><li>▪ To eligible countries</li></ul>	<b>1a</b> Average cost per patient treatment <b>1b</b> Number of patient treatments delivered
<b>2</b> Sustainably strengthen eligible countries' national drug management and procurement capacity, and financial self-sufficiency <sup>1</sup>	<b>2a</b> Number of countries that move to direct procurement
<b>3</b> Ensure appropriate and efficient staffing and funding to drive the mission	<b>3a</b> Organizational health and culture index <b>3b</b> Staff capacity and capability index <b>3c</b> Funds raised vs. required for GDF administrative costs <b>3d</b> Funds raised vs. required for GDF activities

<sup>1</sup> Financial self-sufficiency of countries may be an objective for the Partnership as a whole

# The COO's annual dashboard is the output of each team's performance review

\* May be reviewed less frequently depending upon team needs

\*\* To be reviewed semi-annually

# KPI tree for GDF's first objective

Objective	Category	High-level KPI	Detailed KPIs	Owner	Review frequency <sup>7</sup>			
					M	3M	6M	A

# GDF performance review calendar

 Combined meetings

Meetings	2010											
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
<b>Annual review meetings</b>												
▪ Coordinating Board												
▪ GDF COO												
<b>Team meetings</b>												
▪ Annual <sup>1</sup>												
▪ Quarterly <sup>2</sup>												
▪ Monthly												
<b>Cross-team meetings</b>												
▪ Procurement effectiveness												
▪ Product quality, selection, and supply												
▪ TA/M+E customer satisfaction												
▪ TA/M+E effectiveness												
▪ Recommendation implementation												

1 Quarterly and monthly KPIs can be discussed as necessary

2 Monthly KPIs can be discussed as necessary

## Next steps to implement and capture benefits

	Description
<b>Share KPI trees with donors</b>	<ul style="list-style-type: none"><li>▪ Present GDF KPI tree to donors and compare with KPIs/metrics requested by donors</li><li>▪ Discuss with donors if streamlined GDF KPIs meet their reporting requirements</li><li>▪ Agree on any additional KPIs that need to be reported upon</li></ul>
<b>Integrate KPIs into MIS</b>	<ul style="list-style-type: none"><li>▪ Establish simple mechanisms within GDF's existing MIS system to input and analyze data required for KPIs</li></ul>
<b>Complete performance dialogue workshop</b>	<ul style="list-style-type: none"><li>▪ Conduct 2 hour workshop with GDF team leads on facilitating constructive performance dialogues with teams</li></ul>
<b>Embed KPIs in team performance review</b>	<ul style="list-style-type: none"><li>▪ Officially launch new performance management process; next steps are<ul style="list-style-type: none"><li>— Assign data collection/reporting responsibilities within teams</li><li>— Schedule review meetings or add review to agendas of existing meetings</li><li>— Complete one round of performance reviews</li><li>— Refine KPIs and review process based on team feedback</li></ul></li></ul>

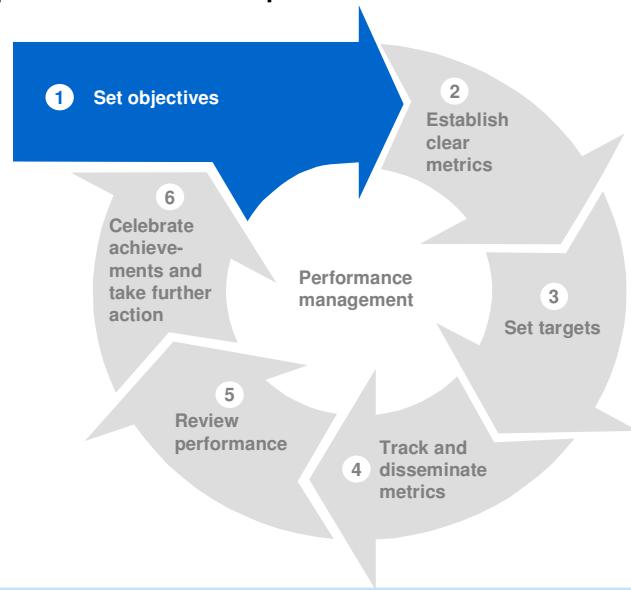

## Contents

- Project overview
- Global Drug Facility
- **Advocacy**
- Communication, Marketing and Branding
- Challenge Facility for Civil Society
- MDR-TB Working Group
- Next steps

# Advocacy Team issues and opportunities

## GHP performance issue

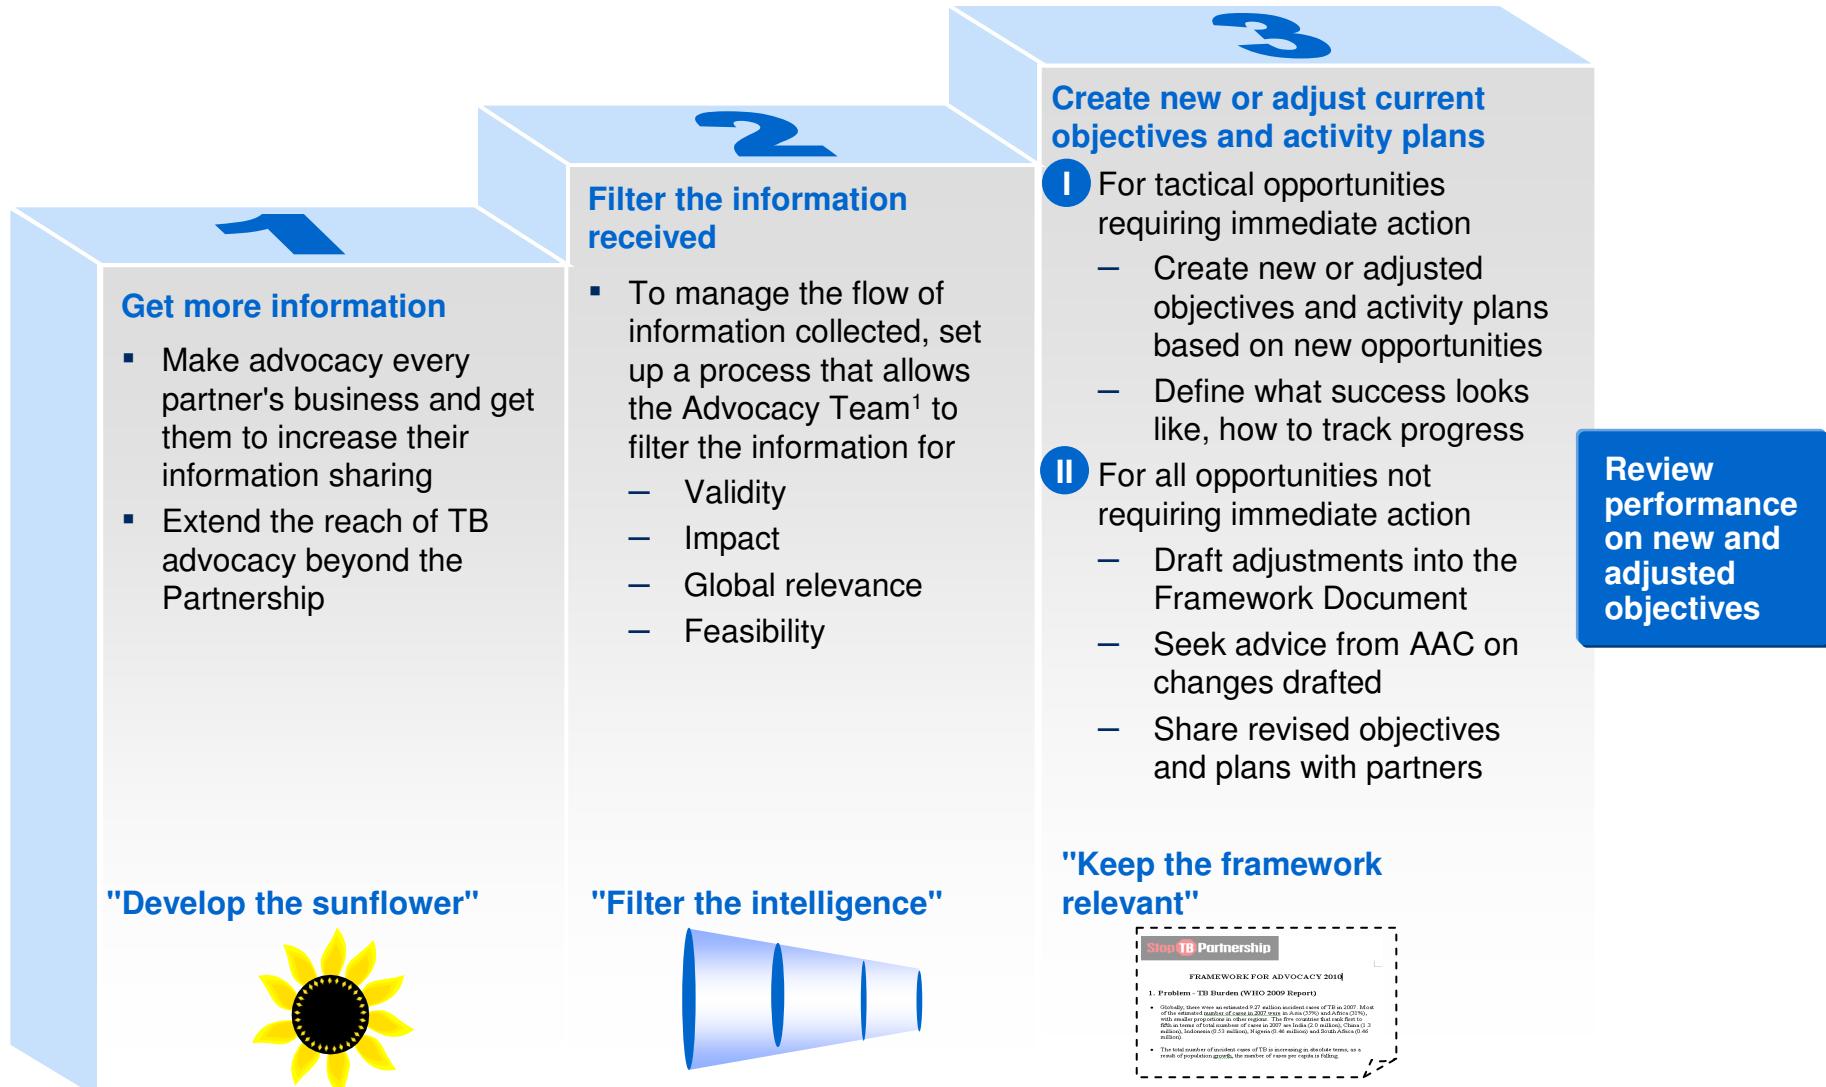

- ① Setting advocacy objectives that stay current and relevant in changing external circumstances
- ① Finding and making visible tactical advocacy opportunities for partners to act

## Advocacy improvement opportunities

- ① Setting advocacy objectives within Stop TB Partnership that stay current and relevant in changing external circumstances
- ① Finding and making visible tactical advocacy opportunities for Stop TB partners to act

# 3 steps ensure that emerging opportunities are incorporated in advocacy partners' plans and/or into the Framework Document

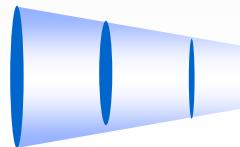

2

## Filter the information received

- To manage the flow of information collected, set up a process that allows the Advocacy Team<sup>1</sup> to filter the information for
  - Validity
  - Impact
  - Global relevance
  - Feasibility

## "Filter the intelligence"

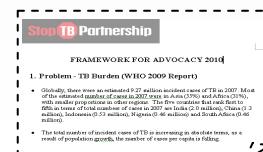

3

## Create new or adjust current objectives and activity plans

- I For tactical opportunities requiring immediate action
  - Create new or adjusted objectives and activity plans based on new opportunities
  - Define what success looks like, how to track progress
- II For all opportunities not requiring immediate action
  - Draft adjustments into the Framework Document
  - Seek advice from AAC on changes drafted
  - Share revised objectives and plans with partners

Review performance on new and adjusted objectives

## "Keep the framework relevant"

<sup>1</sup> Advocacy Team includes Secretariat advocacy and WHO STB department advocacy teams

# 1 There are 2 steps to get more relevant information, faster

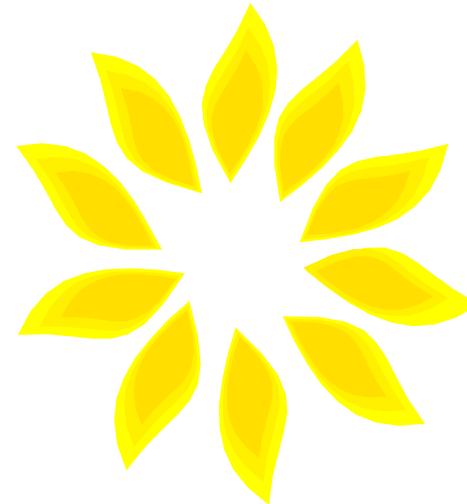

## Make advocacy every partner's business

- A** Present the advocacy framework to the Partnership
- B** Use recent framework developments to keep partners informed and excited about advocacy priorities
- C** Foster partner discussions on advocacy priorities/activities on Center for Resource Mobilization website
- D** Actively engage “Network Stars” within the Partnership

## Extend the reach of TB advocacy beyond the Partnership

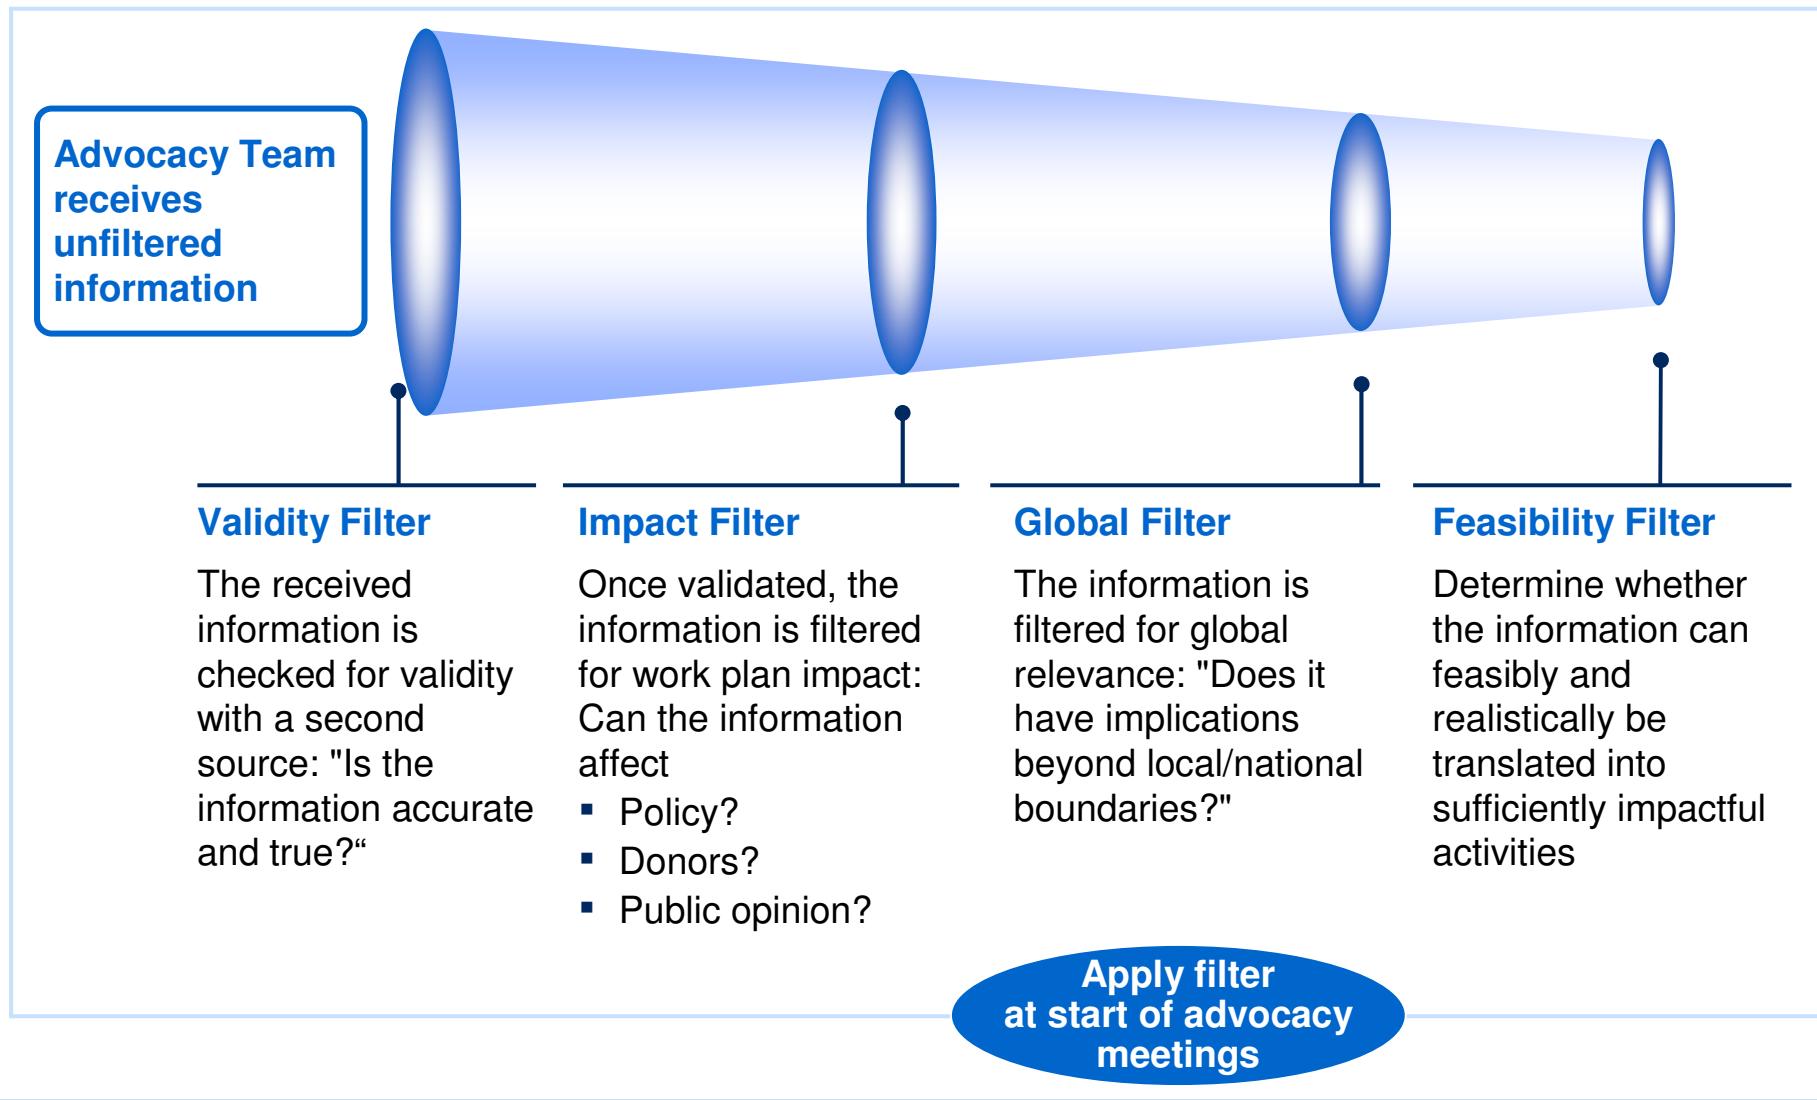

- E** Locate, research and prioritize target Network Stars
- F** Create opportunities to initiate contact with the Network Stars targeted
- G** Nurture relationships with collaborative Network Stars, de-prioritize others

1 Network Stars are defined as the most highly connected individuals within a network through whom information flows first

## 2 The information received from an active and extended network needs to be filtered across 4 criteria

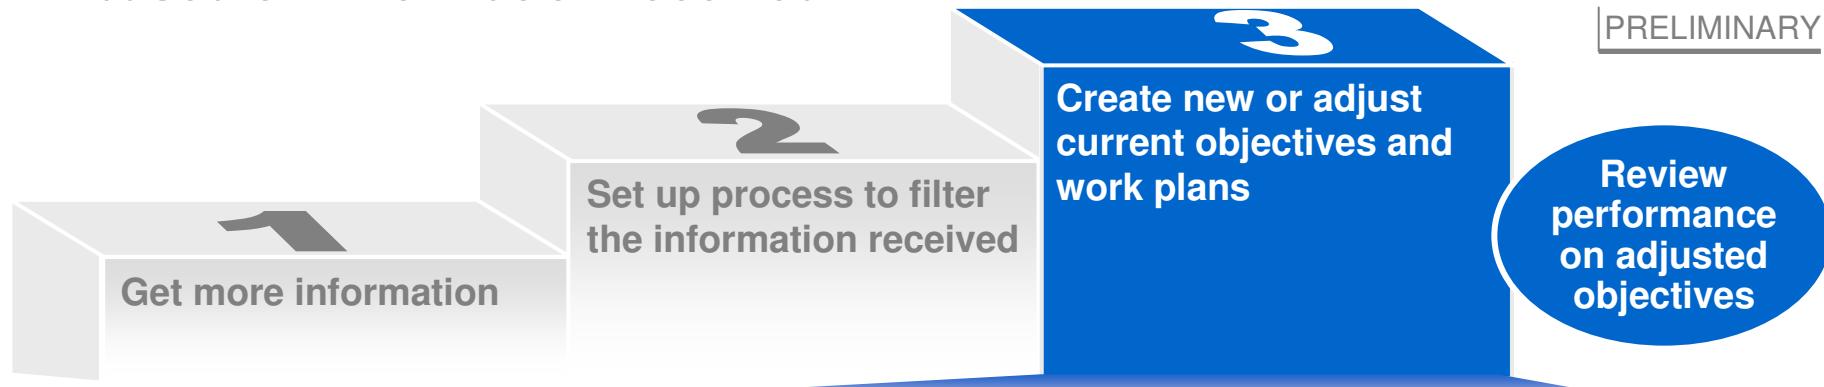

PRELIMINARY

### 3 Framework document needs to be refined and revised based on information received

PRELIMINARY

#### I For tactical opportunities requiring immediate action

Analyze filtered intelligence and create new—or update current—objective

- Create new objectives and plans, define success and how to measure progress

#### Prompt for rapid input from AAC

- As time is limited, input gathering to happen over phone or same day email feedback loop

Share updates to all relevant stakeholders for immediate buy-in and action

- Share new/adjusted objectives and plans
- Define success and how to measure/track progress (e.g., how many updates suggested? Pursued? Achieved?)

#### II For all opportunities not requiring immediate action

Analyze filtered intelligence and create new—or update current—objective

- Secretariat Leadership and Advocacy Team jointly analyze and discuss the filtered information, drafting new or adjusted objectives

#### Share updates with and seek advice from AAC

- Submit changes to AAC for input by next Advocacy Network call
- More substantial adjustments to be submitted to the Coordinating Board

#### Input into Framework Document, share with Advocacy Network

- Share adjusted Framework with Advocacy Network and other partners
  - In monthly Advocacy Network call
  - In monthly email update with link to CRM website

# Next steps and expected impact

PRELIMINARY

	Description	Expected impact
Engage the Partnership	<ul style="list-style-type: none"><li>▪ Present framework document to<ul style="list-style-type: none"><li>— Coordinating Board: Nov 2009</li><li>— Advocacy Network: Dec 2009 (Cancun)</li><li>— Stop TB Leadership: Nov 2009</li><li>— Core groups of the Working Groups: Nov 2009</li></ul></li><li>▪ Set up Advocacy Network calls</li></ul>	<ul style="list-style-type: none"><li>▪ Strengthen Advocacy Network ties and increase dialogue between advocacy stakeholders</li><li>▪ Improve the use and increase the sharing of relevant information</li><li>▪ Stay ahead of emerging threats and opportunities</li><li>▪ More efficient use of Advocacy Team's limited time – no extra resources required</li></ul>
Identify Network Stars, plan engagement	<ul style="list-style-type: none"><li>▪ Map Network Stars within and beyond the Partnership</li><li>▪ Link Network Stars to objectives, prioritize outreach</li><li>▪ Plan engagement for prioritized Network Stars</li></ul>	
Develop CRM website section, Standard Operating Procedures	<ul style="list-style-type: none"><li>▪ Advocacy Team to determine ideal structure and content of the CRM site section devoted to the framework</li><li>▪ Develop and disseminate Standard Operating Procedures for sharing information, updating the website (Nov 2009)</li><li>▪ Complete work on CRM website (Dec 2009)</li></ul>

# Communications Marketing and Branding issues and opportunities

## GHP performance issue

- ① Getting from a vision to the specific objectives for the partnership and its bodies rather than directly to activities
- ② Agreeing the right metrics for objectives that are difficult to measure, e.g., awareness about TB

## Communications, marketing, and branding improvement opportunities

- ① Determining detailed objectives for each audience group that the Communications, marketing and branding team seeks to address
- ② Define metrics for each detailed objective

# 4 steps lead to clear objectives, metrics and targets, as well as to required activities to deliver

## 1 Identify audience groups

- ② Raise awareness about TB among members of the public in donor countries and selected high-burden countries

High level objective	Stakeholder group/audience
2.1	High net worth individuals, DC
2.2	High net worth individuals, HBC, BRICS
2.3	Students / young adults, DC and HBC, BRICS
2.4	All other adults, DC
2.5	All other adults, HBC and BRICS
2.6	Children, DC and HBC, BRICS

SOURCE: Team discussion

Identified and prioritized all audience groups per high-level objective

McKinsey & Company | 5

## 2 Define specific objectives per audience group

- ② Raise awareness about TB among members of the public in donor countries and selected high-burden countries

High level objective	Stakeholder group/audience	Objective per stakeholder group/audience
2.1	High net worth individuals, DC	<ul style="list-style-type: none"> <li>Raise awareness about TB via traditional and innovative channels to increase private donations and penetrate influential networks</li> </ul>
2.2	High net worth individuals, HBC, BRICS	<ul style="list-style-type: none"> <li>Raise awareness about TB focusing on the target's own channels and innovative channels in order to increase private donations and penetrate influential networks</li> </ul>
2.3	Students / young adults, DC and HBC, BRICS	<ul style="list-style-type: none"> <li>Develop and roll out a viral marketing / social media campaign</li> <li>Stimulate commitment and action against TB from students</li> <li>Generate student involvement for World TB Day, e.g., organization of activities</li> </ul>
2.4	All other adults, DC	<ul style="list-style-type: none"> <li>Raise awareness about the prevalence and threat of TB using traditional and innovative channels in order to grow donor support and additional bottom-up pressure on government</li> </ul>
2.5	All other adults, HBC and BRICS	<ul style="list-style-type: none"> <li>Provide communications and marketing support in raising awareness and familiarity with TB so as to:           <ul style="list-style-type: none"> <li>Support the increase in detection and treatment (e.g., educating about self-diagnosis, treatment steps), understanding of contagion risks</li> <li>Foster additional pressure from civil society onto HBC governments</li> </ul> </li> </ul>
2.6	Children, DC and HBC, BRICS	<ul style="list-style-type: none"> <li>Raise children's awareness for and sensitivity to TB by providing playful educational materials about the threat of TB, preventative measures, and common symptoms (in local language), e.g., using the Figo animated cartoon</li> </ul>

Defined key communications/marketing objectives for each audience group/stakeholder

SOURCE: Team discussion

McKinsey & Company | 5

## 3 Set metrics and targets

- ①B Raise awareness about TB among members of the public in donor countries and selected high-burden countries/BRICS

High level objective	Stakeholder group/audience	Objective per audience group	Metrics
1B.1	HNWI <sup>1</sup> and highly networked individuals, DC	<ul style="list-style-type: none"> <li>Raise awareness about TB via traditional and innovative channels</li> </ul>	<ul style="list-style-type: none"> <li>Number of individuals</li> <li>Monetary value of public health</li> <li>Number of target persons</li> <li>Percentage of actual health</li> <li>Number of target persons</li> </ul>
1B.2	HNWI and highly networked individuals, HBC, BRICS	<ul style="list-style-type: none"> <li>Raise awareness about TB in individual's country via traditional and innovative channels</li> </ul>	
1B.3	Students / young adults, DC and HBC, BRICS	<ul style="list-style-type: none"> <li>Develop and roll out a viral marketing/social media campaign</li> </ul>	
1B.4	All other adults, DC	<ul style="list-style-type: none"> <li>Raise awareness about the prevalence and threat of TB using traditional and innovative communication channels and marketing products</li> </ul>	<ul style="list-style-type: none"> <li>Number of actual health</li> <li>Number of Day camp participants</li> </ul>
1B.5	All other adults, HBC and BRICS	<ul style="list-style-type: none"> <li>Provide communications and marketing support in raising awareness and sensitivity to TB (special focus on women)</li> </ul>	
1B.6	Children, DC and HBC, BRICS	<ul style="list-style-type: none"> <li>Raise children's awareness for and sensitivity to TB by providing playful educational materials about the threat of TB</li> </ul>	<ul style="list-style-type: none"> <li>Number of children reached through educational projects</li> </ul>

1 High Net Worth Individuals

2 Value of in kind donations to be estimated and translated into dollar amounts

SOURCE: Team discussion

Set specific metrics and S.M.A.R.T. targets for each prioritized objective

McKinsey & Company | 5

## 4 Define activity plan

- ①C Raise awareness about TB among selected institutions – Business community (1/2)

Priority stakeholder group/audience	Objectives	Metrics	Target
Business community	<ul style="list-style-type: none"> <li>Raise awareness among business people by targeting locations and venues they regularly encounter (restaurants, hotels, conference centers, rental car agencies)</li> </ul>	<ul style="list-style-type: none"> <li>Number of business people reached through business partners (e.g., Kempinsky, Sixt)</li> </ul>	<ul style="list-style-type: none"> <li>5M (VC to confirm Kempinsky numbers for 2009)</li> <li>&gt;50%</li> </ul>

Defined activity plans required to achieve each prioritized target

1 Value of in kind donations to be estimated and translated into dollar amount

SOURCE: Team discussion

**The high-level objectives are related to 3 areas – raising awareness about TB, engaging TB networks and supporting the Secretariat**

**Mission**

**Inspire the world  
into action against  
tuberculosis (TB)**

**High-level objectives**

- 1** Raise awareness about TB among
  - A** The "fourth estate" (news media)
  - B** Members of the public in donor countries and selected high-burden countries/BRIC+2<sup>1</sup>
  - C** Selected institutions
- 2** Engage, support and foster a shared sense of purpose among partners and other members of TB networks
- 3** Provide coordinated support for the core work of the Secretariat

<sup>1</sup> BRIC + 2 = Brazil, Russia, India, China, Indonesia and South Africa

## For each high-level objective, audience groups, objectives, metrics, and targets have been defined (1/2)

High-level objective	Audience group	Objective	Metric	Target
<b>1B</b> Raise awareness about TB among members of the public in donor countries and selected high-burden countries/ BRIC + 2	Students and adults in donor countries  Students and adults in HBC <sup>1</sup>  Highly networked individuals in DC <sup>2</sup> and HBC	<p>Raise awareness about the prevalence and threat of TB using traditional and innovative communication channels and marketing products in order to grow donations and generate additional bottom-up pressure on social opinion</p> <ul style="list-style-type: none"> <li>▪ Develop and roll out a viral marketing/social media campaign to <ul style="list-style-type: none"> <li>– Stimulate commitment and action against TB</li> <li>– Generate involvement in World TB Day, e.g. participation in and organization of activities</li> </ul> </li> </ul>	Total number of people reached through marketing channels  Number of high profile TB events targeting students and adults successfully planned and executed Total  Percentage of population 18-65 years old acknowledging TB as top 5 Global Health Priority	Online viral campaign: 30 million  TV Public Service Announcements (PSAs): 5 million  Internet PSAs: 10 million  Social networking tools/channels, e.g., YouTube, Facebook 5 million

1 HBC = High burden countries including BRIC +2

2 DC = Donor countries

## For each high-level objective, audience groups, objectives, metrics, and targets have been defined (2/2)

High-level objective	Audience group	Objective	Metric	Target
1A Raise awareness about TB among the "fourth estate" (news media)	Feature writers/ magazine editors, DC Health/Science/Development journalists, DC Editorial page editors, DC Influential journalists and editors, HBC <sup>2</sup> Broadcast producers, DC Citizen journalists, DC	Meet with editors to encourage TB coverage (focus on women's magazines)  Excite writers into writing about TB by pitching high-impact topics, e.g., growing threat of MDR-TB and XDR-TB	Number of personal meetings with editors  Number of editors engaged in ongoing dialogue following personal meeting	4  2

# The team will finalize execution plans and align with other teams to ensure the right activities get done

	Description	Expected impact
Execution plans and budgets	<ul style="list-style-type: none"><li>▪ Present updated objectives to Executive Secretary</li><li>▪ Complete detailed execution plans with activities required to meet objectives</li><li>▪ Allocate budgets/resources to activities</li></ul>	<ul style="list-style-type: none"><li>▪ Focus within team on the high-impact activities that directly aim at delivering against objectives</li></ul>
Internal and cross-functional alignment	<ul style="list-style-type: none"><li>▪ Align with Advocacy and Partnering and Social Mobilization teams to ensure<ul style="list-style-type: none"><li>— Responsibilities for shared objectives are clear</li><li>— Ownership of activities is transparent</li><li>— Interfaces on joint projects are well managed</li></ul></li></ul>	<ul style="list-style-type: none"><li>▪ Clear ownership for deliverables, within and across teams</li></ul>
Performance review	<ul style="list-style-type: none"><li>▪ Ensure regular (e.g., quarterly) review to assess progress against objectives</li></ul>	<ul style="list-style-type: none"><li>▪ Ability to measure and review performance of communication, marketing and branding – functions that are typically difficult to assess</li></ul>

## Contents

## GHP performance issue

- ① Getting from a vision to the specific objectives for the partnership and its bodies rather than directly to activities

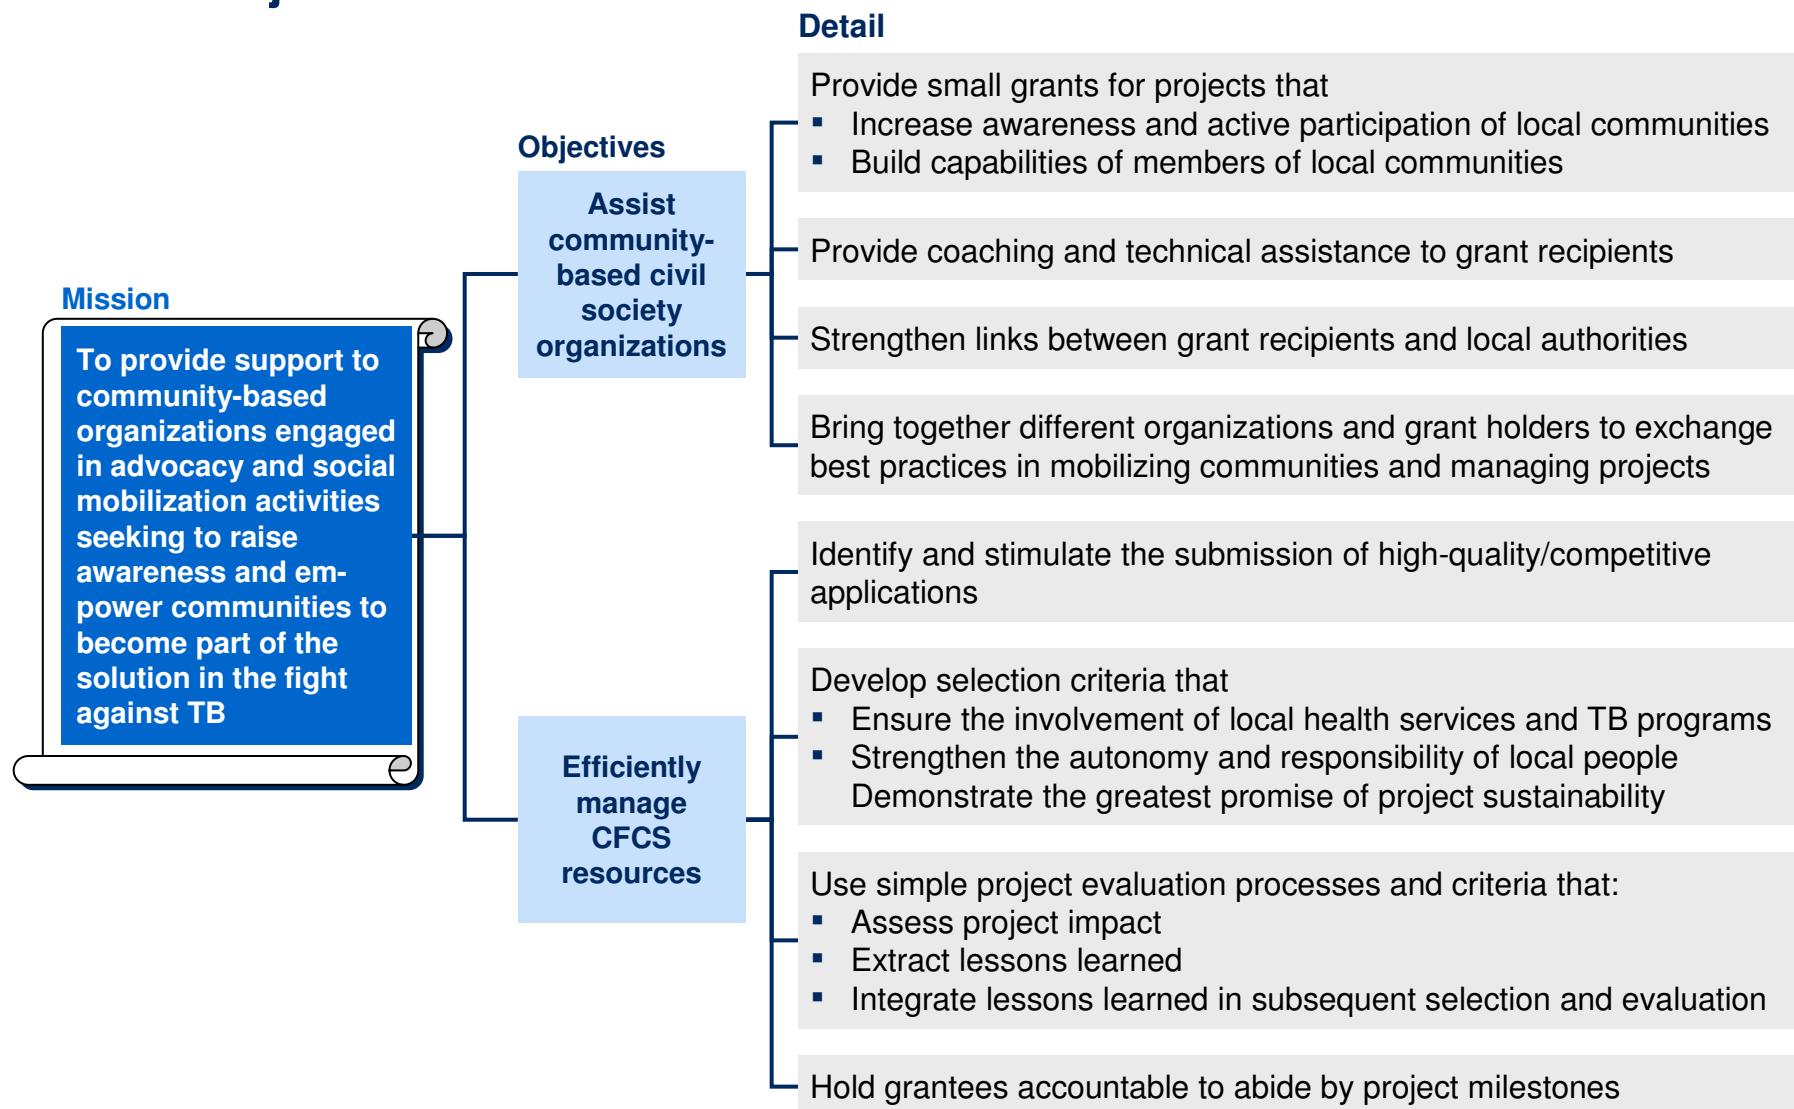

## CFCS improvement opportunities

- ① Refine the mission based on experience and lessons learned in the first two years of the CFCS program
- ① Articulate specific objectives around the newly refined mission statement

## The team conducted 4 workshops to revise the CFCs mission, objectives, selection and evaluation criteria

- 1 Refine current mission based on the experience accumulated since program inception, reviews and lessons from field visits
- 2 Define objectives based on the newly revised mission
- 3 Determine the proper set of application selection criteria that best help achieve CFCs objectives
- 4 Define grant evaluation criteria and template to allow for easy and efficient assessment of individual grant performance

# As a first step, the team clarified the CFCS mission and defined objectives to deliver this mission

**The CFCS team can use 2 simple indicators to monitor performance against the objectives**

Objectives	Metrics
<b>Assist community-based civil society organizations</b>	Percentage of funded projects that have impact, defined as achieving $\geq X$ score on <b>evaluation criteria</b>
<b>Efficiently manage CFCS resources</b>	Percentage of funds dispersed to projects that receive $\geq Y$ score on <b>selection criteria</b>

**The selection and evaluation criteria help to define performance standards**

# The selection template will allow the selection committee to assess if proposals aim to deliver against CFCs objectives

0 Strongly disagree  
4 Strongly agree

Themes	Detailed criteria	Score				
		0	1	2	3	4
Contribution of grants to CFCs objectives	<ul style="list-style-type: none"> <li>▪ The proposal includes advocacy and social mobilization activities within the target community</li> <li>▪ The proposal includes activities that build awareness and encourage participation of local community</li> <li>▪ The proposal contains capability building/training activities that empower individuals within the target community with practical knowledge about their rights and responsibilities in TB care and control</li> <li>▪ The proposal contains activities that strengthen the engagement of local health services and other relevant organizations with the local community</li> </ul>	<input type="checkbox"/>				
Clarity of objectives and activities	<ul style="list-style-type: none"> <li>▪ Grant objectives respond to a specific TB control challenge</li> <li>▪ Objectives are S.M.A.R.T.<sup>1</sup></li> <li>▪ Activities are in logical and consistent relation to the objectives</li> <li>▪ Each activity is appropriately budgeted</li> <li>▪ Administrative costs do not surpass 25% of the total budget</li> </ul>	<input type="checkbox"/>				
Clarity of expected outcomes	<ul style="list-style-type: none"> <li>▪ The proposal includes metrics and targets</li> <li>▪ There is a clear plan to measure against metrics</li> </ul>	<input type="checkbox"/>				
Project sustainability	<ul style="list-style-type: none"> <li>▪ The outcomes generated by the activities in the proposal             <ul style="list-style-type: none"> <li>– Can be sustained in a way that meets funding requirements</li> <li>– Result from processes that have been institutionalized</li> </ul> </li> </ul>	<input type="checkbox"/>				

<sup>1</sup> SMART – Specific, measurable, actionable, realistic, time-bound

Total score = TBD  
(Maximum score = 52)

# The evaluation criteria template assesses whether grants have performed against CFCs objectives

0 Strongly disagree  
4 Strongly agree

Themes	Detailed criteria	Score				
		0	1	2	3	4
<b>Empower communities by increasing awareness/participation and by building capabilities</b>	▪ Grant increased awareness within local community	<input type="checkbox"/>				
	▪ Grant increased active participation within local community	<input type="checkbox"/>				
	▪ Grant provided evidence of knowledge transfer to local community (e.g., examples of activities within local community that were enabled by training)	<input type="checkbox"/>				
<b>Strengthened links with local health services/other organizations</b>	▪ Grantee has developed a collaboration mechanism with local health services	<input type="checkbox"/>				
	▪ Local health services endorsed activities and outcomes	<input type="checkbox"/>				
	▪ Grantee proactively engaged and interacted with other local relevant organizations	<input type="checkbox"/>				
<b>Ensured activities are sustainable</b>	▪ Generated outcomes are sustainable/long-lasting (e.g., required funds are in place, processes to sustain outcomes are in place)	<input type="checkbox"/>				

Total score = TBD  
(Maximum score = 28)

# Implementing the selection and evaluation criteria would allow CFCS to fund the right proposals and more easily assess their impact

	Description	Expected impact
Implementation	<ul style="list-style-type: none"><li>▪ Receive approval to continue CFCS from Coordinating Board</li><li>▪ Define list of activities to elicit project proposals that are aligned with objectives and selection criteria</li><li>▪ Apply selection template in review of applications for next funding round in Q1 2010</li><li>▪ Apply evaluation templates to assess awarded grants</li></ul>	<ul style="list-style-type: none"><li>▪ Increase in number of high potential, relevant applications</li><li>▪ Decrease in time and resources needed to<ul style="list-style-type: none"><li>— Correctly assess potential of an application</li><li>— Evaluate the implementation of grants</li></ul></li><li>▪ Synergies captured across CFCS and other Partnership bodies</li></ul>
Cross-functional alignment	<ul style="list-style-type: none"><li>▪ Discuss short-listed proposals with other Partnership bodies to ensure synergies between activities at local level*</li></ul>	
Performance review	<ul style="list-style-type: none"><li>▪ Ensure regular (e.g., semi-annual) performance review to assess progress against CFCS objectives</li></ul>	

1 E.g., country X to move from GDF grant services to direct procurement; CFCS project supports activities to advocate with local government to increase TB resources

# MDR-TB Working Group issues and opportunities

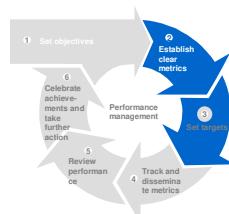

## GHP performance issue

### Enablers

- **Culture** – Ensuring partners within a loose working group arrangement are engaged and motivated to contribute
- **Capacity** – Allocating significant resources to performance management given limited resources for internal processes

### Processes

- ② Agreeing the right metrics for objectives that are difficult to measure
- ③ Committing to targets is difficult because of voluntary nature of partnerships

## MDR-TB Working Group improvement opportunities

### Enablers

- Developing a simple survey-based tool to assess the level of working group engagement
- The procedural operations of the WG (e.g., following-up on specific activities) are restricted by limited secretariat/managerial resources

### Processes

- ② Metrics set by the WG could be more explicitly tied to objectives of the WG and its members
- ③ Accountabilities and timelines for specific actions/outcomes are not always clear

# Questions for MDR-TB WG team barometer

## Objectives and direction

The objectives of the WG are clear and members are fully aligned on them

<input type="checkbox"/>				
<input type="checkbox"/>				
<input type="checkbox"/>				

The WG's leaders provide clear strategic direction

The Chair of my subgroup provides clear direction

## Delivery against objectives

I believe the WG is making good progress towards achieving its objectives

<input type="checkbox"/>				
<input type="checkbox"/>				
<input type="checkbox"/>				

My subgroup meaningfully contributes to the overall objectives of the WG

The WG is having a meaningful impact in the fight against MDR-TB

## Individual contributions

My role within my subgroup is clearly defined

<input type="checkbox"/>				
<input type="checkbox"/>				
<input type="checkbox"/>				

The individual contribution of each member of my subgroup meets my expectations

After meetings, accountabilities and deadlines for specific actions are clear

My contribution to the subgroup receives sufficient recognition

## Mindsets and behaviors

The culture within the WG is collaborative and constructive

<input type="checkbox"/>				
<input type="checkbox"/>				

Members are encouraged to voice their opinions, even if they are controversial

# The collaborative work with the MDR-TB Working Group is just beginning – overview of suggested next steps

## Next steps

---

- Launch MDR-TB Working Group “team barometer” survey
- Develop metrics and targets that directly evaluate performance against WG objectives
- Develop further approaches to improve members' participation and accountability
- Assess the implications of MDR-TB scale-up on the WG and assess future capacity requirements
- Develop a "business case" for additional secretariat/managerial resources, if required
